INTRODUCTION

The purpose of this Index is to enable all types of data - births, deaths, crimes, delinquencies, building permits and similar sources of original data - to be reported on the basis of the same statistical area, the Census Tract. When the street and a corresponding (or approximate) address are used as a means of locating a source of data, the data can be assigned to the proper statistical reporting unit (census tract) by using the street index as the locator.

Numbers listed from even to even include only even numbers, while numbers listed from odd to odd include only odd numbers.

Numbers listed from even to odd or from odd to even include both odd and even numbers.

In several instances where street names are duplicated one of the names has been assigned to census tract C-1. This entire tract is located within the boundaries of the Presidio of San Francisco and the street names are listed to provide as complete a coverage as possible. Furthermore, certain named streets do not appear on all maps as they are located on military installations such as the Hunters Point Naval Shipyard, a portion of census tract L-5A.

Abbreviations used in the Index are as follows:

ES = entire street	S/S = south side
NN = no numbers	E/S = east side
N/S = north side	W/S = west side

All references to San Mateo refer to those streets in San Francisco that continue into that portion of San Mateo County which is contiguous with San Francisco.

Corrections and additions to the Census Tract Index, which should be included in future editions may be forwarded to:

James R. McCarthy, Director of Planning
Census Tract Key Person
for the City and County of San Francisco
San Francisco Department of City Planning
100 Larkin Street
San Francisco 2, California

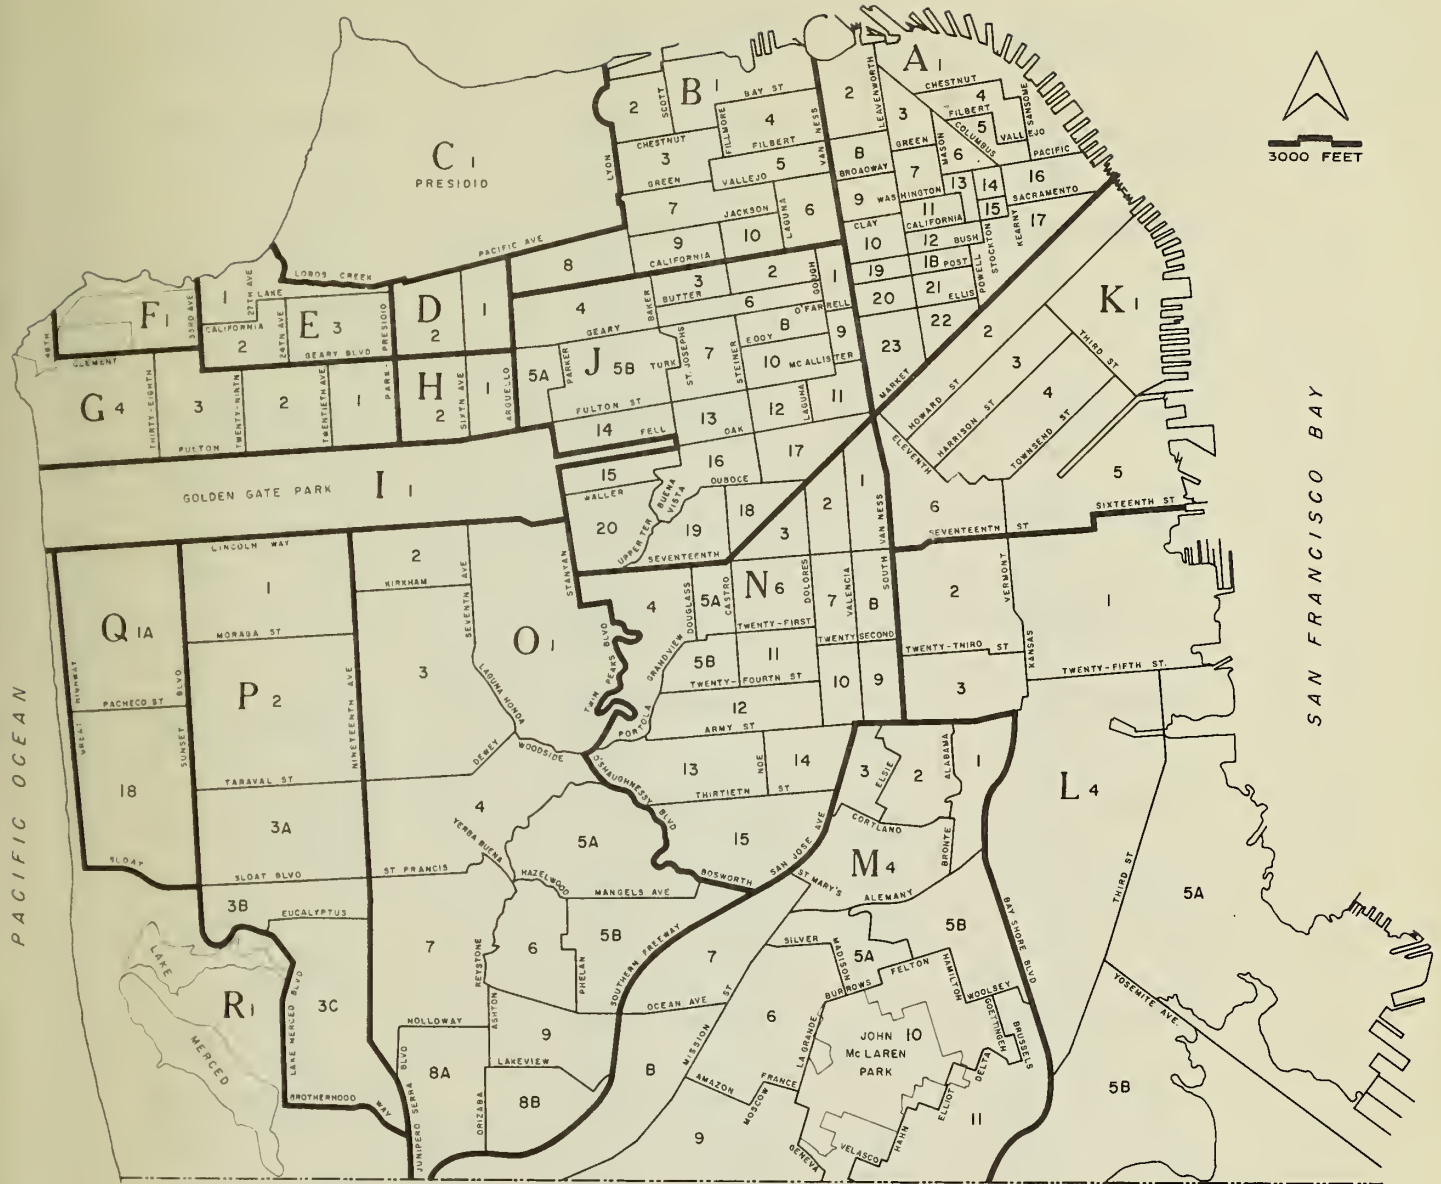

Attention: Mr. Norman J. Ross
Assistant City Planner
